

Bunny Bill video (Excerpt of Celebration Of Sides by Robert Neale) DOWNLOAD

Imagine you borrow a bill and fold it into a small top hat. With a small squeeze of the bill a bunny rabbit pops out of the top hat. All of this is made with one bill and a clever sequence of folding developed by the genius Robert Neale. This video is taken from Robert Neale's Celebration of Sides DVD... an amazing collection of magic, oddities, and wonderful thoughts. The video clip teaches the Bunny Bill in intricate detail over the shoulder using a jumbo bill so that every nuance and fold is captured. Bob Neale teaches this with the additional guidance of Michael Weber. Bunny Bill is an item top names such as Paul Harris have carried and used with real audiences. It's the perfect item to carry in your wallet, to make for friends, to give as a tip, and to use as a conversation starter.
