Here is something amazing! Get ready to predict things before they take place and not only that but having the prediction inside a balloon, which is the ultimate symbol of intact as nothing can pass in or out. Luca and Titanas bring you the fundamentals and many bonuses for this incredible mind boggling concept!

Imagine this:

You proceed to a complete stranger and hand them a balloon, ask them their name and also to name any card they want. They do so and you ask them to give the balloon a shake. They will hear something inside. You burst the balloon and inside there is only one card, which of course matches the freely selected card, with the spectator's name written on it. That is just a small sample of what is possible with this wonderful concept.

Luca created an amazing video with so many ideas utilizing an old concept from the past and brought it to 2009. He succeeded to create many practical professional routines.
