Torn & Restored Card To *Spectator's* Wallet

Imagine:

The magician asks YOU to select a card. YOU rip it into four equal pieces. YOU give three back and keep one yourself. After a squeeze.....The magician's three pieces vanish - Gone. In your own wallet, there are the three pieces. No longer torn - restored with one quarter missing. Your piece.

This is a torn and restored card effect that changes direction, cutting loose of all expectation and rationality. **CONNECTED** has been Peter's closing effect in his close-up routine for years and now it is available to you.

This is not your typical card trick - What you receive is a super indepth tutorial lasting over one hour that'll teach you everything you need to make this amazing routine your own.
