Anthony Jacquin has over ten years experience as a hypnotist and is the author of the best-selling book: "Reality is Plastic - The Art of Impromptu Hypnosis" On "The Manchurian Approach" he shares a new genre of magical performance. Mixing his love of mentalism with his hypnotism skills, together with Kev Sheldrake he has created a performance style and technique capable of producing some of the most mind-blowing mental effects.

On this three-disc set you will learn, in detail, Anthony's approach to impromptu hypnosis - no prior knowledge is required - the first part of this set will guide you through everything you need to know in order to become the hypnotist. The second part takes the format of a discussion forum where Anthony is joined by mad genius, Kev Sheldrake and fellow hypnotist and magician Amit Badiani. In this section you will get a detailed look at some of the principles and applications of the techniques taught to magic and mentalism performances.

Hypno forces and hypno peeks are examples of the covert pre-show techniques that are available to a hypnotizing mentalist. The Reverse Mind Reading effect takes these concepts a step further, producing an unlimited ability to read a mind with the minimum of hypnotic pre-show work.
