

## **Stand Up Coin Magic by Nathan Kranzo video DOWNLOAD**

A new download featuring coin effects designed to be performed for larger groups and better visibility.

In this new download Kranzo gets away from the tired old coin effect performed at waist level. Hold your coins high and come along for a great ride.

All the routines are performed standing. All the routines are WILDLY visual.

### **Wish Paper**

A flashy (no pun intended) way to produce your coins. The last coin will surprise them EVERY time. Nathan also teaches his versatile Index Finger Shuttle Pass.

### **Cashing In**

Cash in your Casino Chips for real money instantly! Features a bare hand production that will fool them all.

### **Will The Kort Please Rise**

A stand up version of Milt Kort's classic coins through table routine. Kranzo adds an extra element that looks like real magic.

### **Flesh-N-Bone**

When a table is not around push the coins through flesh and bone! We predict this coin through hand routine will be the most talked about coin effect of the DVD!

### **Guess Which Hand**

The presentation of "Guess which hand" is something EVERYONE can relate to. What a clever and magical way to draw someone into your performance.

### **Crackers**

You'll have to see this to believe it. Coins turn into snacks! You will never perform on an empty stomach again!

### **The Tail**

Heads or tails? A question that appeals to everyone. This hilarious effect always gets a roar of laughter.

Four of these routines use nothing more than a regular expanded shell. Three routines use no gimmicks at all!

"I have two words for this download...GET IT!!!"

"So you have a stand up gig, and you'd like to do some coin magic. What are you going to do? There's a shortage of good, practical stand up coin magic that's within the reach of the average close up magician. Most of the really good coin magic either requires lots of practice (Vernon's Coins and Glass routine comes to mind) or costs a big chunk of change (Ultimate 3 Fly, 3CM, Triple Threat). The good news is that this new download from Nathan Kranzo is dedicated to coin magic that won't bust your knuckles, or your pocketbook. The most expensive item you'll need is a shell coin, and the most exotic is a piece of flash paper. And best of all there isn't a single 3 Fly or Coins Across routine on the download. If you haven't guessed, I like this download a lot. It's full of easy to do workers that you can perform for a twelve-top, or the crowd at a cocktail party. The plots are simple, and direct with plenty of room for personalization in the presentation, and the production/transformation sequence from Crackers and Cashing In is something you'll to use to create variations to fit your audiences. Recommended for lovers of coin Magic and workers who want some fresh coin material."
