

## **Hell Raiser by Arnel Renegado Video DOWNLOAD**

HELLRAISER is a brand new effect from Arnel Renegado where a spectator selects a card and signs it. The magician then draws any image he wants on the back of that card. Suddenly, mysteriously, the image moves and rises by itself away from the card. The writing then floats back down and the card is given out for examination. \*Immediately hand the card out for examination, any chosen card, easy to do and perform.
