

RIVEN by Sebastien Calbry - Video DOWNLOAD

The reconstruction of a torn card within a fraction of a second!!!

A brand new version by the French creator Sebastien Calbry.

The used method is devilishly brilliant and barely requires any manipulation.

Using the deck of cards' tuckbox, you will literally tear apart the spectator's signed card in 2 pieces. You can even present him with the half of the card while the other part is still on the tuckbox. All that's left to do after that is put the card back together in a fraction of a second.

- Classic Tuckbox (no modification)
- Easy to accomplish
- No string, magnet, flaps
- Ultra-flash
- Strong impact on your crowd

You will be able to tear apart and reassemble as many cards as you want!
