

Surface 2.0 by Arnel Renegado - Video DOWNLOAD

A very visual penetration of a tictac into the tictac box.

EFFECT // You hand some tictacs to your spectator and say that your gonna try something with a tictac, you then stab the tictac into the box and something unusual happens the tictac melted and you can see it happening because the other part of it is seen from inside of the box, you then pulled it back and hand the tictac leaving the tictac box unharmed. This is SURFACE II.
