

## **VOID by Ryan Clark - Video DOWNLOAD**

With just a wave, you can visually vanish and produce practically any small object. No need to say more, the video demo speaks for itself.

The effect is accomplished using a small gimmick which can be made at home within minutes.

### **Aspects:**

- Your hands never touch.
- Coin can be borrowed and/or examined.
- Vanish sequence can practically be performed to an audience at an 360 degree angle.
- Production sequence can be performed at an 180 degree angle.
- No funny moves.
- Very little sleight of hand required.
- No sleeves

Difficulty level: 2/5
