

Timeless by Dan Alex - Video DOWNLOAD

A new method to stop the time at any time, anywhere and with any spectator watch.

Imagine asking a spectator her personal quartz watch, and tell him that you are able to stop time.

Shake the watch and the second hand will stop under his eyes.

Then you will put into his hands the watch and the second hand will move again.

A real mentalism effect 100% impromptu.

Easy to do!

Guys, this is Timeless...
