TRKS by Kyle Marlett video DOWNLOAD

TRKS by Kyle Marlett is a brand new download with 3 effects. There is a card control, a coffee house effect, and a strolling effect. They are all easy to perform, easy to make, and highly visual.

"Everything you could hope for in a download! It's like candy for your eyes... like eye candy"
- Chris Ramsay

"Kyle Marlett is a nerd. But what that means is his magic has meticulous thought behind it with visual inspiration from nerdy sci-fi movies. The magic in TRKS is perfect for the Snapchat generation of magic (which also means I'll be using it)"
- Justin Flom

"Kyle is a creative wonder"
- Andrew Mayne

"TRKS contains practical, visual, and wonderful magic"
- Andi Gladwin

- What you learn -

KM Controll- A surprisingly fooling card controll that even if you know the method it will fool your eyes.

Spooning- A perfect and organic routine for walk around or strolling gigs. A spoon is held at the finger tips and it slowly vanishes with the wave of the fingers. Once it almost fully vanishes with a wave it re appears. As a bonus kicker the spoon visually jumps from hand to hand and everything is fully examinable after.

Surbe- A sugar packet is handed out for examination and held by the finger tips. As you concentrate on the sugar packet the sugar inside starts to visibly grow and form into a square like shape. The audience opens up the packet and now inside is a sugar cube and everything is examinable and kept by the audience.
