

Volant by Ryan Clark - Video DOWNLOAD

A deck suspension that looks impossible is now possible! A very simple yet visual approach to the deck suspension effect is here.

The effect is accomplished using a small gimmick which can be made at home within seconds.

Aspects:

Cards and box can be examined before and after the effect.

Coin can be borrowed and/or examined.

Can be performed at an 360 degree angle with very little light requirement.

No funny moves.

Very little sleight of hand required.

No sleeves

Difficulty level: 1/5
