

## The Blind Faith Collection by Abhinav & AJ - Video DOWNLOAD

A collection of 4 easy to do card sleights:

**Ambience Control** - A single card control to the top that can also serve as a phase in an ACR.

**Layer Change** - A bold and fast card colour change which is done at chest level.

**Topsy Force** - An easy to do single card force that deceives the eye.

**Turvy Control** - An easy to do single card control to the bottom.

Note: We have not included the other three sleights (Layer Change; Topsy Force & Turvy Control) in the demo video because it deceives the eye and not the camera (however the download has a performance video of it). Hence the name The Blind Faith Collection.
