

## **Elastication - Visible Rubber Band Through Pencil Penetration by Jonathan Royle Mixed Media DOWNLOAD**

Thirty-three large format photo illustrated A4 pages together with an instructional video, teach in simple step by step detail four real world audience tested impromptu magic tricks that Jonathan Royle has performed for decades in his shows around the world.

You'll learn how to make an elastic band penetrate through a pen in a manner that when Royle showed it to Jeff McBride at the 2009 Blackpool Magic Convention, Jeff's response was "Where can I buy that?"

Next you'll discover how to make a napkin vanish from your hand without the need for a thumb tip or any gimmicks in a truly magical way.

A pen through bank note trick is then taught which requires no gimmicks of any kind.

Last but not least, Royle Reveals the torn and restored bank note routine that he has been using for decades. You are seen tearing the entire middle out of a note and to then restore it right before your spectator's eyes without the need for any switches or gimmicks of any kind.

These are four powerful real world close-up miracles that can even be performed "impromptu" and are one hundred percent unreservedly recommended.
