

Business Cards by Abhinav Bothra Mixed Media DOWNLOAD

NEVER FAIL TO LEAVE YOUR MEMORY

Everything taught in this downloadable video/eBook:

- Requires little or no preparation
- Is easy to do
- Has almost zero angle issues
- Allows you to hand out business cards

ACCURATE - Based on Andrew Gerard's Accuracy, it's different but impromptu. Three objects are hidden -- one in each hand, and one in a card box. The performer then deduces the location of each object.

BRIEF BUT ACCURATE - Accurate made short but still effective.

B4 EXPERIENCE - This is how ESPerience used to look like.

DISMANTLE - Spectator-as-mindreader made simple, with seemingly zero involvement of the performer.

HAPTIC - A fun little piece dealing with unconscious cognition, and utilizes your sense of touch.

PINNED UP MEMORY - Spectator stumbles across the PIN of your mobile phone. Later, you demonstrate your memory power.

THIS THAT WHAT? - A different take on the classic This and That card trick, but with business cards and with a twist.
