AN INCREDIBLE BOOK FOR CHILDREN'S ENTERTAINERS

Kids Party Magic is a practical book of magic for children's magicians. It contains entertaining and many original tricks that you can add to your show right away. Included are themed tricks around Easter and Christmas, as well as insights into the theory of performing for kids.

Are you looking for new comedy items and gags to perform with assistants? What about ideas for prizes? How about incredible comedy routines with props that break and fall apart? You can construct all of these easily and inexpensively within an afternoon -- from balloons, wands, bells, and cards to hankies. The original book was written a few years ago, and has been completely revised, edited and updated. Plus, you receive a download link for the Easy Magic Tricks book (with full print rights) which your digital printer can print as a prize for the birthday child. If that's not enough, you also receive the links to 3 Teach-In videos on Children's magic, including Wolfie's Kids Magic, Xmas Magic and a Balloon Modeling video that teaches 25 single balloon figures.

Many of these original tricks and routines would cost ten times the price of this book from a magic dealer.
