

The Escape by Sandro Loporcaro (Amazo) - Video DOWNLOAD

Amazo is back and here presents an illusion that can be shown everywhere and in all conditions. Four pieces of chain are shown and, with four real padlocks, the chains are fixed around the neck, around the ankles, along the body and near the hands, and once again near the body. Yet, still the magician escapes - incredible! You can make the escape behind a curtain or in a large trunk in an escapology performance. Perfect for street magic or stage. Use any chain, any lock -- no additional cost involved. **The Escape** enables you to break free of the chains FAST, astonishing your audience!
