After the great success of Insomnia, now the best effects of the DVD are available on instant download!

This is **Slide Effect!**

Slide Effect: A slow visual morph of one card to another.

A card is shown and then lost in the deck. A second (different) card then visually transposes into the first card! In a second phase of the routine, the cards are spread face up - all looks normal. They are closed and spread again. One card in the middle of the deck is face down - when turned over, we see that the first card has returned!

- Pure sleight of hand
- Easy to do
- 360°
