

## **Cigarettes by Rama Yura video DOWNLOAD**

Anyone can do this trick, including those of you who are not smokers, because it's just for fun!

You show the audience a card from inside your pocket, then after a snap, the card turns into a pack of cigarettes! You display the pack and remove cigarettes from the box. After that, you place the cigarette box into your pocket and suddenly, from your empty hand, appears a lighter! If that's not enough magic, the lighter in your hand changes color in the blink of an eye. You can light the cigarette to show the audience that it is real. One magical moment after another.
