BEFORE YOU TAKE YOUR MAGIC SHOW ON THE ROAD, THIS BOOK SHARES SOME VITAL TIPS WITH YOU

Taking a large stage/illusion show on the road is a massive task that can be hugely rewarding and profitable. However, there are also many pitfalls that one needs to be aware of that can ruin you. This eBook is filled with concise information to guide you in the right direction so that you don't end up jumping in the deep end and making costly mistakes.

Topics include market research, planning your show, the types of tricks one should consider, transport, sound and lights, special effects, backdrops, and maintenance. You'll also learn how to deal with assistants and guest artists, what advertising is available, the processes involved in booking a venue, and what to watch out for so you'll know whether the hall is suitable for your needs. Extra money ideas and basic, hands-on practical tips are shared by a fellow magician who has toured nationally and internationally with his own show. Thus, the information shared is based on real-life experience from someone who has done it before.

If you are thinking about, or are already planning a touring show, this eBook is bound to shed extra light and share important tips to make the entire process a lot easier (and more profitable!) for you.
