

Polarized by James Howells Mixed Media DOWNLOAD

Polarized - Use a Polaroid to pay out an old lottery ticket.

An old lottery ticket and a Polaroid photograph are shown (you may remember Polaroid photographs from years ago). The lottery ticket is visually transported into the Polaroid photograph. Then, with just a shake, the lottery ticket changes into a bill. The bill is then visually pulled out of the photograph. IT'S A REAL BILL! The bill is then handed out for examination.

Download comes with:

Video Instruction for construction of the gimmick and how to use the gimmick in performance.

All PDF files to construct gimmick for both US bill and British Pound versions.

Ideal piece of eye candy for Facebook or Instagram!
