

My Friend Lino by Sandro Loporcaro (Amazo) video DOWNLOAD

When you produce something from nothing, audiences see this as real magic. Show a glass of water. Place a handkerchief over the glass and, after picking up the glass and removing the handkerchief, a goldfish is now swimming in the water! Audiences applaud like crazy!

- No cost involved (other than purchasing the goldfish).
- No special rubber gimmick required.
- Use this method to produce several goldfish, if desired, during your show.
