EFFECT:

Your participant guesses which hand an object sits in, a game which is played five times. The performer's prediction astonishes all, as it reveals he knew the outcome in advance. Then, jaws drop for a second time as the performer reveals that he knew every decision the participant would make, and what's more, the prediction has been in the participant's pocket from the word go.

This is gimmick-less and it is super simple to perform. No magnets and nothing to go wrong. **Foreseen** includes essential tips and subtleties. And also includes an amazing bonus handling.

Foreseen is a reputation maker, a thoroughly thought-out piece of mentalism and a unique prediction based routine. It's an organic miracle.
