

Coalesce by Xeon Steel video DOWNLOAD

Coalesce is a unique TNR (Tear & Restore) that enables the spectator to visually tear their own chosen card -- a plot that has been overlooked for years. You usually see magicians tearing the card themselves - rarely do you see the spectator tearing the card. And what a difference this makes in their reactions! Xeon has taken the overlooked plot and made it, "Simple but yet... Absolutely Devious!" Perform completely surrounded, in any situation. Close-Up, Parlor and Stage.

Want spectators to be blown away? **Coalesce** will deliver this for you. The more that spectators are personally involved in an effect, the more shocked and amazed they are!

3 Variations with multiple handlings:

- Any Card
- Open Hand Restore
- Signed Card (Bonus Effect)
