

SATORI by Matt Pilcher video DOWNLOAD

A great way to find a spectator's card, using an intriguing presentational hook!
Their mouth will hang open!

Using a borrowed deck with ZERO set-up, you hand the cards to the spectator to shuffle. You then spread the cards onto the table face down and invite your spectator to take any card they want. It really IS a FREE choice!

The selected card is then returned to the deck and lost.

You then spread the cards face up and ask your spectator to hold onto your wrist while they concentrate on their card... A few concentrated moments later, you reveal the selected card!

You will be performing this AGAIN and AGAIN and AGAIN!

"Uh... Wow. I have no idea how you did that!"
