

Publicity Secrets #1 How to Stop a Moving Car with Your Mind by Devin Knight eBook DOWNLOAD

One of the greatest publicity effects ever conceived -- this can truly result in free newspaper publicity worth thousands of dollars. Of all the publicity stunts that Devin Knight created, this was the late Al Mann's favorite! In this eBook, **Publicity Secrets #1 How to Stop a Moving Car with Your Mind**, you'll learn the fabulous secret and can generate invaluable publicity for yourself!

One of the effects described in this release is that a reporter drives your car while you sit in the front seat or stand on the street. You command the engine to stall -- it does exactly that and the car coasts to a stop. No amount of attempts by the reporter will start the car. You get out of the car and place your hands on the hood and concentrate. The reporter is now able to start the car! In another variation, you cause a second car that is passing by to stall and stop on the highway at the same time! This can make for a heated exchange between you and the other driver that will be reported in the newspaper. Before a tow truck can be called, the performer apparently uses his psychic powers to make both cars start!

HOW TO STOP A MOVING CAR IN FRONT OF A NEWSPAPER OFFICE

This is a fantastic stunt and it appears in print for the first time. The performer stands in front of a newspaper office along with a reporter. He causes a car driving by to suddenly stall by apparently using the powers of his mind. The stalled car can NOT be started, despite repeated attempts by the driver. Other people on the street may stop and attempt to start the car. NO ONE CAN START IT. You and the reporter walk over to see if you can be of assistance. The reporter also attempts to start the car to no avail.

You claim that you will start the car by using the powers of your mind. You place your hand on the hood of the car and concentrate. INSTANTLY, the car starts to the amazement of all watching. If people are on the sidewalk, they may applaud you for doing this, as it appears completely impossible. This feat can be an effective bit of street magic. Yes, you can even do these feats for television shows.

Some of this information appeared in two of Devin's previous publications, The Blindfolded Car and How to Stop a Moving Car PDF. However, this publication

contains NEW and updated information on how to do this with modern cars. There is also a new method using the latest technology that has not appeared in print anywhere before. It is being revealed in this publication for the first time. This new method will puzzle the mentalists who have read my other publications on the subject. This new secret is ingenious and it alone is worth the price of the eBook.

No pipe dreams. Real workable methods used by Devin Knight and easily done by you. This is the kind of stuff from which legends are made. People will think you have special powers when you perform these stunts! Even if you choose not to perform these feats, it is worth buying the eBook to see how Devin Knight pulled these stunts off.

IMPORTANT NOTICE: No actual damage is done to any car's engine. The technique is completely safe for the cars and will NOT damage them in anyway. The performer can cause the stalled cars to start at any time.

"I read this and it's exactly what it says. This is worth the price and very well written, and has me thinking and actually researching other methods."

- **Adam McClure**

"This stunt will make you look like Magneto from X-Men! People may bow down and worship you."

- **Robert Marsi**
