

The Vortex by Sam Wooding eBook DOWNLOAD

Hello, I am Sam Wooding and this is **The Vortex**.

The Vortex is a method that allows you to walk up to a spectator, and ask them to think of a word from a poem. (The method taught utilizes a poem. However, you can use a code or a list instead.)

The performer immediately starts to get a jumble of letters in their mind. When they write down the letters, it's proven that every letter on the paper matches up with the thought-of word!

The performer then asks the spectator to think of another word. The performer again gets the word in a jumble. After asking the spectator to fully concentrate on the word, the performer then divines the word!

- There are no forces
- This is 100% practical
- No anagrams are used
- No psychological techniques
- 100% sure fire

This eBook download is a steal!
