

## **The Art: Midnight Side of the Mind II by Paul Voodini eBook DOWNLOAD**

Paul Voodini presents **The Art: Midnight Side of the Mind II**. This is the follow up work to 2011's groundbreaking *Midnight Side of the Mind*, and as such should not be purchased unless you have a copy of *Midnight Side of the Mind*.

**The Art: Midnight Side of the Mind II** covers many new routines and ideas while also offering expansions and ideas from the original *Midnight Side of the Mind*. New routines include Sitting in Circle where a group of people are given the gift of clairvoyance, The Ghost of Highgate Cemetery where a volunteer is taken on a journey to a graveyard, and The Ganzfeld Experiments which is an entertaining adaptation of the Ganzfeld ESP and telepathy experiments carried on in the mid-to-latter 20th Centuries. Other gems include the Candle Ritual and a new relaxation ritual - perfect ways to get your volunteer(s) in the perfect frame of mind for the routines that are to follow.

If you already own *Midnight Side of the Mind*, **The Art: Midnight Side of the Mind II** will expand your horizons even further and will add to your "dream scaping" repertoire.
