

## Travel to Rome by Sandro Loporcaro (Amazo) video DOWNLOAD

In this video, Amazo presents two new mind-reading effects. These can be performed in any situation, and they are easy to do! You use ordinary objects to achieve these miracles!

**Dream of Mentalist:** The magician shows a folded prediction, which is visible throughout the entire effect. Ten different colored Sharpies are shown on both sides. The magician covers them with a handkerchief. A spectator is invited to take one of them from under the cloth. The prediction matches color of the chosen marker! No force, no change, no multiple outs. This is angle proof, and works 100% of the time!

**Future Clock:** An impossible mind-reading effect with a clock! Use any large clock. The spectator sets the clock's time while the magician is not looking. Still, the magician is able to discern the exact time set by the spectator! This effect uses no electronics, no magnets, no adhesives, no mechanisms, no mirrors, and no sounds. You can perform this even while you are out of the room! Immediately repeatable. Perfect for stage.
