

Devious by JasSher Singh video DOWNLOAD

DEVIOUS is exactly that! It's both a Close-Up Effect and an amazing, invisible move!

Using this technique, you can "deviously" accomplish many card miracles that will stun your audience!

Imagine borrowing a spectator's deck. The spectator freely chooses a card and signs it -- then they place the card back inside the deck. Magically, the card jumps to the top, right in front of their eyes!!

OR - use this as a secret control to get the spectator's card to the top of the deck, but don't tell them! Steal the card, hide it under a table, have it appear in your pocket or wallet, etc. They'll never know you were able to secretly access their card!

THIS IS A PERFECT CLOSE-UP ACT! You start clean and end clean!

SHUFFLE THE DECK AS MUCH AS YOU'D LIKE.

Things you can accomplish with **Devious**:

- Any card to the top
- Use a borrowed deck
- Unlimited possibilities
- Signed version included
- Easy to learn but too hard to crack

You will love and use this effect!
