

Cone and Ball Lecture by Jeki Yoo video DOWNLOAD

A new and exciting lecture - a presentation and explanation of Jeki Yoo's unique version of the **Cone and Ball** effect. With color changes and more surprises!

In his words:

"When I was 19 years old, I saw a video of Aldo Colombini performing a **Cone and Ball** routine. It was very attractive and had a different feeling from Cups and Balls.

"It looked like it was a little more stimulating to the imagination of the audience.

"So, I looked up related videos and I found Dai Vernon's Ball, Cone and Handkerchief routine.

"He presented it in a classical way and had a reason for all the moves. It was beautiful!

"Aldo Colombini showed it with his style in a modern way.

"After I saw these routines, I really wanted to make my own routine. Then I found some different solutions, and finally I could make my own routine.

"Yes! This is my version of the **Cone and Ball** routine."

- **Jeki Yoo**
