

The Devil Eight My Card by Matt Pilcher video DOWNLOAD

The Devil Eight My Card is an easy-to-do miracle from magic creator, Matt Pilcher.

Using a borrowed deck, with ZERO set-up, your spectator takes out ANY eight cards. They are then asked to think of any one of the eight cards and to remember it.

The cards are then shuffled and mixed, the spectator getting to decide where the cards go in the shuffle. REMEMBER, the magician DOES NOT know what card the spectator is thinking of. The cards are placed on the table and the magician NEVER touches the cards again from here on. It is only at this point, when the cards are out of the magician's hands, that the spectator names the card they are thinking of.

The spectator is then instructed to look through the cards. Their thought-of card has completely disappeared! What happened to it? Where did it go? The Devil has taken it!

In this 20+ minute instant video download, Matt teaches you everything you need to know to pull off this card miracle.

A few points to remember:

- This can be done 100% impromptu with a borrowed, shuffled deck.
- All you need is eight cards (of the spectator's choice).
- You really DON'T know what card they're thinking of.
- There is ZERO set-up! If someone has eight cards, you're good to go.
