

Breakfast by Machammad Rahadyan video DOWNLOAD

The magician asks the spectator to take a card freely, without coercion. This card may be signed by the spectator if desired. The magician then removes the two Jokers. The spectator places their selected card anywhere into the deck, and then the Magician places the two Jokers into the deck. When the two Jokers are later removed, it is found that one card is now sandwiched between them - the spectator's card!

- 100% Impromptu
- No gimmick
