

## **The Quick Change Artist by Jason Ladanye video DOWNLOAD**

Here's a great opener with lots of visual magic!

The spectator has their choice of any card, and the magician, in his quest to find the right card, visually changes an Ace into 3 suits, none of which are correct. The fourth Ace ends up being found under the spectator's hand in an amazing transformation. Then, after shuffling the Aces back into the deck, the performer cuts to all four Aces! However, the spectator says they did not select an Ace - they selected a Jack - a Jack of Diamonds. That's okay, as the magician turns the Ace of Diamonds into the spectator's Jack of Diamonds! Not only that, but he then changes the remaining three Aces into the other Jacks. WILD!

This video download will teach you how to perform this bewildering and fun routine!
