

Static Balance by RN Magic video DOWNLOAD

This looks so amazingly impossible, your audience won't believe their eyes!

Borrow your spectator's cigarette and balance it on the pack. That's right! Place it on the edge, and it stays suspended in the air! Perform this miracle anytime and anywhere. Easy to master and can be fully examined before and after!!!!

Best of all, none of the following are used: magnet, glue, wire, thread, double tape, elastic loop, sticky wax, weight, soap, water, or any suspicious items.

Enjoy the reactions you'll get when you learn **Static Balance!**
