

## **Torzsch (Ornament X-Sandwich) by SaysevenT - Video - DOWNLOAD**

I now proudly present a "card trick" I named **Torzsch**.

This is a very effective and special move that will come in handy for you as a **MAGICIAN** who loves card magic.

This is **NOT** just a **CARD CHANGE** -- this technique can be used for other card routines and combinations.

### **INCLUDED IN TUTORIAL:**

#### **- Torzsch (Ornament X-sandwich)**

A card routine where a card placed in the middle of the deck magically becomes "trapped" between two Jokers.

"Ornament X-Sandwich" is different from other effects because there is one card selected at random and the card found by the magician is **NOT** the chosen card. Then the **MAGICIAN** shows this card to be sandwiched between 2 Jokers. **INSTANTLY** (in just 0.3444 seconds), this card **CHANGES** and becomes the audience's originally chosen card!

#### **- Topaz**

Here is a simple but amazing card routine you will learn. First the audience is shown there are two cards -- the first is the Joker, the second is the 9 of Hearts.

Without having to cover all parts of the 9 of Hearts (you show approximately half of the card), using **Torzsch**, in just 0.3444 seconds, the card turns into the 9 of Clubs or another card, as you desire.

#### **- Bonus**

Imagine displaying a box of Bicycle cards along with the removed cellophane. Using only **Torzsch**, in just 0.3444 seconds, the card box turns into a deck of cards!

## **FEATURES:**

- Impromptu and no gimmicks
- Routine explained
- Nonverbal instruction
