This is genius! **REVERSED** is an unbelievable TORN n RESTORED Effect created by Stefanus Alexander.

Your spectator selects ANY card they like, and then SIGN their card. In addition, the spectator folds their own card.

Everything happens in the SPECTATOR'S hand from the beginning - the most amazing type of magic!

The magician then takes back the spectator's card and RIPS it into two pieces.

The signed card RESTORES itself, with the magic happening right in front of your SPECTATOR'S eyes!
