

## Twins + Melted by Dan Tudor - Video - DOWNLOAD

Two effects which, when combined together, create an amazing ROUTINE!

**Twins:** A card is selected by the spectator. After it visually switches places multiple times with its 'twin' card, it vanishes COMPLETELY from the deck and then reappears with just a shake.

**Melted:** The two playing cards visually MELT into one single card, and then become separated again!

Download the video and learn this amazing routine.
