

## **The Scouter by Alexander Pavatzoglou - Video - DOWNLOAD**

5 spectators choose 5 cards each from a deck of cards previously shuffled by them.

Each chooses only one from the 5 cards he is holding without saying/writing or showing his choice to anyone else.

THEY then shuffle their choice in their packet so even they don't know where their card is.

THEY place the 5 packets in any order they like.

Then the magician mixes the cards a little bit more by dealing 5 packets of 5 cards.

The magician shows the packets to the spectators and as soon as they say in which packet they saw their choice, the magician can instantly reveal the 5 chosen cards.

Can be done with ANY BORROWED deck!!!

Totally FREE choices of cards!!!

NO key cards!!!

In fact, the magician never needs to look at the cards!!!!
