

## **Spiral Principle and Beyond by Stephen Leathwaite and World Magic Shop - Video - DOWNLOAD**

### **Spiral Principle**

The Spiral Principle is a new concept in magic that allows you to perform miracles with a borrowed deck of cards. Imagine having a spectator shuffle, freely select a card then lose it back into the deck. Without doing anything you instantly know what their card is and it's location in the deck. Included in the Download are 5 killer effects that would not be possible without the spiral principle including N.A.C, a hands off ACAAN with a twist that you have to see to believe. Once you learn The Spiral Principle your card magic will NEVER be the same again.

### **Beyond**

Beyond is the most stunning 'Out Of This World' you will ever see. Imagine showing a mixed up deck of cards and then having two audience members separate the red's from the black's without ever looking at the faces. The performer NEVER touches the cards and the whole routine is self working.

- No packet switches
- No Rough and Smooth
- Uses a regular deck - No gimmicks
- The magician genuinely never touches the deck
- Very easy to do
