

The Vault - Chameleon Pieces by Woody Aragon - Video - DOWNLOAD

An incredible and highly visual revelation of 4 spectators' chosen cards!

Four cards are chosen and lost in the deck. Woody removes a card - unfortunately, it is NOT one of the 4 selections. What happens next has to be seen to be believed. Woody rips the card into 4 pieces, and with a magical blow, the pieces change to the first spectator's card. He then squeezes the pieces and they magically change to the second spectator's card.

But it doesn't stop there!!! A gentle shake and the pieces morph into the third spectator's card. The pieces change one last time into the final spectator's card. THEN the pieces fuse together, making the card whole again so the spectators can examine it!
