

The Puzzle Dice Solution by Arif illusionist - Video - DOWNLOAD

A mental prediction and magical puzzle all in one!

Show your spectator a die for examination, and also show an envelope containing business cards as your prediction. The spectator randomly selects a number on the die. Remove the business cards and, like a jig saw puzzle, place them down so they form a picture of the number they just selected on the die!

These cards can predict any number that is randomly selected on the die. All can be examined, and the effect can be repeated instantly.

Download the video and the zip file containing the card images for you to print.
