

## Zion by Agustin - Video - DOWNLOAD

You introduce a single blue playing card with one missing corner.

Take another card and cover it with the blue card. Visually, the card under the blue card changes into the spectator's card with just simple push.

Immediately hand them out for examination and see how your spectator is blown away!

This is a simple but impossible color change routine. Easy to do and great for the everyday working magician. Check it out for yourself!

Download the video and learn this amazing visual change!
