

Inside by Charlye David - Video - DOWNLOAD

Hi, I am Charlye from Indonesia, and I am 28 years old. This is the first trick I've made, and I hope you like it so that I can create more tricks for you in the future!

Imagine a spectator's signed coin placed in the palm of their hand. You wave a card box with its clear wrapping over the coin. Soon, they see that the coin has vanished from their hand, only to appear **Inside** the clear wrapper! All without your touching the coin!

After the penetration, you can shake the audience's thoughts and let the audience verify that it is indeed their signature on the coin **Inside** the wrapper. You can then pass out the plastic packaging, cards, card box, and coins to examine or keep as souvenirs.

Only 30 seconds to set!
