Nothing Is Changed... NIC CHANGE

Being able to change a card invisibly in front of an audience is perhaps the best thing when it comes to card magic.

No matter what tricks you perform, if you need a perfect card switch, then this is the move for you.

It's fast, it's deceptive and absolutely impossible.

Imagine having the ability to exchange a card instantly with no setup or gimmicks under plain sight.

Your spectators will be clueless that you are doing anything.

It is so slick, so fast and so clean that it will surprise any magician watching your performance.

Your magic will go to the next level, as this adds just the missing sparkle even to the simplest card routine.

"One of the 'snappiest moves' I've seen in a long time!"

- **Jeff McBride** (Las Vegas Headliner & creator of The Mystery School)
