**- Alexandra Duvivier**

*"Bernardo has created a wonderful version of Triple Intuition. I love the original routine by Dani Da Ortiz. This new routine is impromptu which appeals to me because I love working with a borrowed deck. Also, Bernardo's interpretation is equally as strong as the original because it uses the same structure and design to play with the psychology of the audience. This is important because what the audience remembers is more important than what actually happens. I congratulate Bernardo for his excellent quality of thinking in designing this routine. This is going into my repertoire. Highly recommended."*

**- Michael Vincent**

*"A miracle you can do anytime anywhere, this outstanding version of Dani DaOrtiz's modern classic by Bernardo Sedlacek can be performed with a shuffled regular deck of cards. If you put the work to learn all the techniques and the psychological subtleties taught brilliantly by Bernardo it will pay off with a lifetime of magical moments. Guaranteed!"*

*"I really don't like card tricks. Most plots feel contrived to me. There are usually steps that do not make sense if you were really magic. Not with Bernardo. His routines are always well thought out to feel like the magic is happening organically. Triple Intuition is no exception. It truly plays as if these miracles were really happening.
