

Baffled by Vinny Sagoo - Video - DOWNLOAD

A self-contained mental **MIRACLE** with **BAFFLING** results!

You shuffle a deck of cards and 4 cards are freely selected, either by one person, or 4 different people. They each give their card a number from 1 - 10.

Further cards are added to their card to make the total up to 10. So, if they selected 2, then you add 8 cards. If they selected 6, you add 4 cards, etc.

You then add up the total of the 4 numbers at the beginning and deal down to that card, say the 16th card.

You proceed to open the envelope that has been on display the **WHOLE** time and it has the Six of Hearts in it. You turn over the 16th card on the table and it **MATCHES!**

For the final **KICKER**, you turn over your prediction card and it is **BLANK**. When you now spread the entire deck, it is also completely **BLANK!**
