

The Vault - The Trix by Joel Dickinson - Video - DOWNLOAD

Joel has been perfecting these mind-blowing tricks over many professional performances. The effects are well thought out and are pure eye candy.

"All I can say is that **The Trix** is one of my favorite magic purchases this year."

"Joel has released another excellent product and the asking price is for nothing as, in my opinion, he could have put a bigger price on this."

STRETCH ARMSTRONG: The magician animates his cartoon of a stickman on a signed playing card, then jaws drop as the stickman remains stretched. Finish by handing the stretched stickman to the participant as a souvenir.

BURNED AGAIN: The best take available on the "burnt and restored match" plot.

CONTAGIOUS: A selected card becomes infected with spots. Then a series of baffling visual magic follows. Finally the spots become holes. It looks incredible!

THROUGH: Manipulate ink drawn on your finger. This is a visual delight. The subtleties taught make this 110% more impossible. This is so good my brother is about to get this piece of magic permanently tattooed.
