

## Neo Dice by Esya G - Video - DOWNLOAD

Introducing, the latest effect with a die -- it can change into a card or anything. It can even disappear!

Your spectator chooses one card to memorize. Then you show a die and place the die inside a card box. With a flick of a finger, the die has changed into a card. And that card is the same as the selected card!

Finally, the box is shown empty with no trace of the die and positively no holes in the box.

- NO MAGNET
- NO ELASTIC
- NO THREAD or REEL
- EXAMINABLE
