

## Something From Nothing by Damien Fisher - Video - DOWNLOAD

They say that money isn't everything, but for a split second you will have your audience feeling like they just won the lottery!

Created by Damien The Illusionist, this effect is fast and smooth and in the blink of an eye a dollar bill is produced. There is no need to borrow money from your audience because you are going to be the nice guy and give them a buck \$\$\$.

The gimmick used is an original but can be produced by anyone at a small cost. You can perform it at anytime because of its simplicity. Good sleight of hand creates the effect, making it appear seamless.

The effect will create a spark of fantasy about money, leaving your spectator thinking how nice it would be if you didn't have to work so hard for it...**Something From Nothing.**
